

RGK9 Connectors

Accredited To EN362

Material: Aluminium

Gate Opening 22mm

Size : 135mm x 79mm

Closure Type Screw Gate

MBS 20kn

Weight:200g

Features:

The RGK 9 is an aluminium captive eye karabiner normally fitted to fall arrest lanyards or restraint belts.

The screwgate closure on this device means that the user must manually lock the RGK9 after fitting.

This product has the added advantage of being permanently attached to the lanyard.
